

Mr S Krishnamurthy, Chief Executive Officer

Mr S. Krishnamurthy is a man with a mission. His aim is to make a patient's stay at any of the Beams Hospitals across the country pleasant and painless. Beams Hospitals, in his words, "Aims at providing best minimal access surgery procedures in an environment which though has best of professionals and services, is not reminiscent of a hospital."

SK, as he is popularly called, is an MS in Applied Chemistry, with specialisation in Polymer Science and Technology from College of Engineering, Guindy. He is from the earliest batch to post graduate on this subject.

SK is also an MS in Management, with specialisation in international finance from BITS Pilani Off-campus at SPIC, Chennai. SK has been a part of several start ups. He has worked across several industry categories from manufacturing to service to hospitals to insurance in the areas of production, quality, HR, ISO, sourcing before heading TTK healthcare and then Beams.

Education:

- MS in Applied Chemistry with specialisation in Polymer Science and Technology from College of Engineering, Guindy
- MS in Management, with specialisation in international finance from BITS Pilani Off-campus at SPIC, Chennai

Past Experience:

- Over 30 years of rich experience in standardisation, general management and healthcare and also qualified in IT systems hardware and software. Conducted training programmes on ISO 9000 for several industries and is distinguished as being the first to obtain the ISO for his clients in the pharma, bulk drug, shoe polish, maps, kitchenware and TPA industries

SK comes with a strong analytical understanding of the healthcare provider market which led him to become the Chief Executive officer of Beams Hospitals, India's foremost chain of surgery centres dedicated to Minimal Access Surgery (MAS). As Beams increases its footprint across the country – SK's objective is to ensure that there is no compromise in patient delight and services offered.
